The Anthelmintic Efficacy of *Carica Papaya* Seeds and *Moringa Oleifera* Leaves: A Systematic Review

Published On: March 20, 2026 | Pages: 001 - 007

Author(s): Nana Yaa Awua-Boateng, Sylvia Afriyie Squire, Issah Bagulo, Denis Dekugmen Yar, Helena Agyei Lartey, Helen Djang-Fordjour* and Prince Kyere Dwaah*

Helminth infections remain a major public health and veterinary concern worldwide, particularly in low- and middle-income countries where environmental and socioeconomic conditions facilitate parasite transmission. The increasing emergence of resistance to conventional anthelmintic drugs has intensified interest in plant-based alternatives. This systematic review eval ...
